Testimony Before Illinois Commission Brings Out Interesting Facts About Traffic Matters.

Springfield, Ill., June 12.-Some interestng testimony developed to-day in the hearing before the lilinois Railroad and Warehouse Commission on the petition for general reduction in freight rates. In many instances the evidence was adverse to the railroads and the attorneys representing the shippers believe they scored a decided victory as a result of

the day's proceedings. Especially damaging to the cause of the railroads was the testimony of W. B. Hamblin, general freight agent of the Chicago, Burlington and Quincy Ratiroad, concerning a certain circular relative to freight rates. Former Attorney General Hamlin of Illinois represented the ship-

Hamblin had been placed on the witness stand at the request of the railroad attorneys to belie the statement made, in a circular issued two years ago by the Hillnois Retail Merchants' Association, to the effect that the railroads had consented to a 25 per cent reduction in rates. Attorney William Brown, representing

the Chicago, Milwaukee and St. Paul and the Chicago and Northwestern roads, introduced the subject of the circular. "It is due to ourselves and to the Railroad and Warehouse Commission," he About Tribal Tax Matters, but said, "that both of us have a formal cor-Did Not Succeed in Obtaining rection of this statement, and I ask permission to introduce a witness to refute it. Without this statement, the commission is left in the position of refusing a reduction which the ratiroads have voidn-tecred."

had been submitted to the limbos Metail Merchants' Association, and which had been interpreted to mean a E-per-cent-rate reduction. It was as follows:

"Iowa scale up to seventy-five miles, Grade between seventy-five and ho niles to reach the Illinois grade. Western classification to be the omeial classifica-tion for Illinois."

delegation of business men from the Creek | tion for linnois." Judge Hamin clessed the case in behalf of the shippers late in the atternoon, and the railroads will begin the presentation of their defense to-morrow morning. It is not probable that the railroads whi com-plete their case to-morrow. Nation, Indian Territory, took still another step to-day toward preventing the enforcement of the trhal tax law. Their cause was espoused by Senator J. B. For-The legal battle was a sharp one calculated to give department officials a

The legal battle was a sharp one throughout the day. Strenuous objections were entered by the radicates to the admission of testimony from H. C. Barlow, traffic manager for the Chicago Shippers' Association, and William H. Kilpatrick, but the commission overruled the objections in both instances.

Through the testimony of Barlow, Judge Hamiltonian and Market Marke

Hamilia undertook to make clear the relations of operating expenses, net income and net carnings of roads in Himois, Ohio, lowa and Michigan. Then Secretary Kilsion of the Secretary of the Interior that the tax must be paid. Chairman Thomas P. Smith and Attorney W. T. Hutchins patrick of the commission was examined to show that the interstate roads had charged to Illinois the entire exper operating their terminals in the city of Chicago. It is contended by the complainants that premises.

They enlisted the nid of Senster For-sket, who promised to speak of the mat-ter to the tresident this afternoon if op-portunity should offer. He reported to the this expense should not be charged to H-linots, but should be prorated ever the entire systems.

> PLAN OCEAN-TO-OCEAN TRIP IN NEW MOTOR CAR.

line motor car for railroad use, which he regards as a greater triumph than any financial one he has ever achieved, E. H. Harriman has approved a plan for an bia and Clark. Harriman has approved a plan for an ecean-to-ocean tour of the novel car just finished and turned over to the Union Pacific Railway. Officers of the Southern and Union Pa-

cific and the Oregon Short Line are now arranging an elaborate long-distance test of the touring car, which embodies the bless of Mr. Harriman himself, who some onditions of the problem they have just solved.
It is intended to send the car from Omaha to Portland, Ore., exhibit it a day or two at the Lewis and Clark Exposition,

two at the Lewis and Clark Exposition, thence run to San Francisco over the Shasta route, from thence to Los Angeles, from that city to New Orleans, thence to Chicago via St. Louis.

When Atte car reaches Chicago if will make a speed and handing test run from that city to Milwaukee and return. It is after this that the motor will be taken to New York over a trunk line and then back to 6maha, thus circuiting the continent. At all points opportunity will be afforded for inspection of the car.

Recently the motor car made the run from Omaha to Grand Island, Neb. L4 miles, in five and one-half hours, an average speed of twenty-seven and one-half miles an hour. A maximum speed of formiles an hour. A maximum speed of for-ty miles was reached, which could have been exceeded had the car had the full complement of trucks instead of only four.

TO STUDY AMERICAN RAILROADS. J. J. da Silva Freire of Brazil in City on Way to Colorado.

J. J. da Silva Freire of Rio de Janiero. who was one of the delegates from Brazil to the International Railway Congress, which met recently in Washington D. C., is investigating further the modern American railway methods, and was at the Jefferson yesterday on his way to Colo-

Senor Freire is superintendent of loc motive power of the Central Brazil Raffmotive power of the Central Brazil Rati-way. The most important of the 1800 miles of this railway are standard gauge, but there is much of the old-style narrow gauge still in use. During his stay in Colorado Benor Freire will pay particu-lar attention to the narrow-gauge lines of the Benyer and Rio Grande Railway. Of the 1200 miles of railroad in Brazil, Sener Poisson to the contral brazil, Sener Freire states that at least two-thirds are

of narrow gauge.

After his trip through the West the Bra-zil railway expert will go to New York, thence touring Europe to study the meth-ods employed abroad before he returns to Rio de Janiero.

NEW TEXAS ROAD INCORPORATED. Enterprise is Capitalized at \$370,000 and Will be 37 Miles Long. The Beaumont and Great Northern Rail-

road has been granted a charter in Texas to build a railroad from Trinity, in Trinity County, Texas, on the International and Great Northern Railroad, then southeast to Onalaska, in Polk County, then through to Livingston, Tex. The entire route covers about thirty-seven miles. route covers about thirty-seven miles.

Surveys are being made, and as soon as the line is located contracts will be let for the preliminary construction work. The contral stock is \$150.00. and following is a list of the incorporators: William Carlisle and George W. Pennell, Atchison, Kas. L. C. Jackson, Onalaska, Tex.; James E. Hill, L. T. Sloon and W. H. Knox, Lavingston, Tex.; A. C. Bird, Chicago, R. C. Fyfe, Taler, Tex.; H. E. Farrell, St. Louis, and W. F. N. Davis, Groveton, Tex.

It is the purpose to push the construction of the road as rapidly as possible When completed it will open up a virgin timber country and a good farming district.

Strike at Sedalia.

Setalia, Mo., June 11 - The concrete men. steam fitters, belpers and ditch men employed at the new Missouri Pacific shops made a demand for an increase in wages from \$1.75 to \$2 a day this morning when they reported for duty. The contractors refused the increase and the men walked out. New men will be put in their places to-morrow unless the strike is called off.

PREPARING TO DEPART

schold Necessities Are Being Shipped to Oyster Hay for the Summer-liestly of Miss Roosevelt's Engagement.

REPUBLIC SPECIAL. Washington, June 13.-President and Mrs. Roosevelt to-day began shipping some of the household necessities to their some of the household necessities to their home at Oyster Bay. The packing has been in progress at the Executive Mansion for more than a week in anticipation of the President and his family following to Oyster Bay this week.

The peace negotiations, in which the President has played a leading part, rendered it impossible for him to carry out his original programme; hence he and Mrs. Roosevet will not leave here until the 29th.

Miss Alice Roosevelt returned to Wash-ington to-day after a jolly visit to Cincin-nati, where she was the guest of the fam-ily of Representative "Nick" Longworth, a hachelor member of the present Con-

a bachelor member of the present Congress.

Miss Roosevelt's visit with the Longworth's has renewed the gossip of a probable matrimonial aliance between the Roosevelt and Longworth families. When the subject is mentioned to Miss Roosevelt she laughs at the suggestion, and declares that she has no intention of getting married just now. She says she is having a very enjoyable time under existing conditions and has no desire to change her name at present.

On the other hand, friends of Representative Longworth declare that he is a confirmed bachelor and has no intention of entering the married state. There is undoubtedly a warm friendship existing between them, and their friends need not be surprized if Cupid gets busy and upsets the plans of even a confirmed bachelor and the Fresident's eldest daughter.
